- Regularly updated client with clear and actionable information.

ABOUT ME

Why did I become a programmer? Because it's magic. "A Computational program is indeed much like a sorcers idea of a spirit. It can not be seen or touched. However, it is very real. It can perform intellectual work. It can answer questions. It can affect the world."

EDUCATION

2018 - 2020 • Youth Connection Leader Academy High School Diploma

2019 • DePaul University Data Science Program
